Agency Information Collection Activities: Request for Comments

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of revision of a currently approved information collection, 1028-0048, Did You Feel It? Earthquake Questionnaire.

SUMMARY: We (the U.S. Geological Survey) will ask Office of Management and Budget (OMB) the information collection request (ICR) described below. The revision includes modifications to make it mobile-friendly. To comply with the Paperwork Reduction Act of 1995 (PRA) and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this ICR. This collection is scheduled to expire on May 31, 2015.

DATE: To ensure that your comments on this ICR are considered, OMB must receive them on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Please submit written comments on this information collection directly to the Office of Management and Budget (OMB), Office of Information and Regulatory Affairs, Attention: Desk Officer for the Department of the Interior, via email:

(OIRA_SUBMISSION@omb.eop.gov); or by fax (202) 395-5806; and identify your submission

with ‘OMB Control Number 1028–0048 ’. Please also forward a copy of your comments and suggestions on this information collection to the Information Collection Clearance Officer, U.S. Geological Survey, 12201 Sunrise Valley Drive MS 807, Reston, VA 20192 (mail); (703) 648–7195 (fax); or gs-info_collections@usgs.gov (email). Please reference ‘OMB Information Collection 1028–0048’ in all correspondence.

FOR FURTHER INFORMATION CONTACT: David Wald, (303) 273-8441, wald@usgs.gov. You may also find information about this ICR at www.reginfo.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Geological Survey is required to collect, evaluate, publish and distribute information concerning earthquakes. Respondents have an opportunity to voluntarily supply information concerning the effects of shaking from an earthquake--on themselves, buildings, other man-made structures, and ground effects such as faulting or landslides. Respondents’ observations are interpreted in terms of numbers that measure the strength of shaking, and the resulting numbers are displayed on maps that are viewable from USGS earthquake web-sites. Observations are submitted via the Felt Report questionnaire accessed from the USGS Did You Feel It? Earthquake Questionnaire web pages, and may be submitted via computer or mobile phone. Respondents are asked to provide information on the location to which the report pertains. The locations may, at the respondent’s option, be given imprecisely (city-name or postal Zip Code) or precisely (street address, geographic coordinates, or current location determined by the user’s mobile phone). Low resolution maps of shaking based on both precise and imprecise observations are published for all earthquakes for which observations are

submitted. For earthquakes felt by many respondents, the observations that are associated with more precise locations are used in the preparation of higher resolution maps of earthquake shaking.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and implementing regulations (43 CFR part 2), and under regulations at 30 CFR 250.197, “Data and information to be made available to the public or for limited inspection.” Responses are voluntary. No questions of a “sensitive” nature are asked. We will release data collected on these forms only in formats that do not include proprietary information volunteered by respondents.

II. Data

OMB Control Number: 1028-0048

Form Number: NA

Title: Did You Feel It? Earthquake Questionnaire

Type of Request: Revision of a currently approved information collection.

Respondent Obligation: None

Frequency of Collection: On occasion, after each earthquake

Description of Respondents: General Public

Estimated Total Number of Annual Responses: Approximately 300,000 individuals, based on past experience, but strongly dependent on the number of moderate or large earthquakes occurring near population centers, which cannot be known in advance.

Estimated Time per Response: We estimate that it will take 6 minutes per person on average to answer the entire survey.

Estimated Annual Burden Hours: 30,000 hours

Estimated Reporting and Recordkeeping “Non-Hour Cost” Burden: There are no “non-hour cost” burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. Until the OMB approves a collection of information, you are not obliged to respond.

Comments: On February 3, 2015, we published a Federal Register notice (80 FR 5776) announcing that we would submit this ICR to OMB for approval and soliciting comments. The comment period closed on April 6, 2015. We received no comments.

III. Request for Comments

We again invite comments concerning this ICR as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time. While you can ask the OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Linda Pratt,

Geologic Hazards Science Center,

Associate Director
